

EP out now

JUNKIES N CAT

It gets lonely
up here

i need more
plants

is being lost
all that bad?

Stuck in a
day dream

Where does
the time go?

Braver than
me

i've always
avoided
my reflection

Nothing better
than
nothingness

Ride bikes
take
No SHIT

Stop takin' shit
so seriously

Who says you
can't?

it's okay to
Romantize
your life

Not afraid of
heights, but
afraid of falling

don't follow me
i'm lost too

i Wish i Was
More Patient

life is too
short to
mince words

don't listen
to your
brain

don't jump
lol

You're not bored
you're just
dumb

Of course you're
overthinking

Sit and think
or
just sit

Idk how I got
here but it's
been RAD

No one likes
a heartache

Please Stop
being a
Coward

MOM LOVES
no hands

i'm okay with
no future

You're already
gone

Thumbs up
+
beers

A harsh
reality

i just remember
being lonely

Don't look
back

Everyone has
their own shit
goin' on

No, they don't
think of you
at night

be free
dance more

Close your
weary eyes

i didnt know
how to stay

Without masks

breathe,
breathe,
breathe

You'll make it
only if you run

Go on, git
